Steps to getting a quote:

1. Diagram the location of the fixtures in the room and record room dimensions.
2. Calculate total area:
   Total Area = Length x Width
3. Measure and record areas under fixtures.
4. Subtract areas under fixtures to determine open floor space:
   Open Floor Space = Total Area - Fixture Area
5. Determine voltage.
6. Select cable and temperature controller from data sheet.
7. Mail or fax this sheet to Bylin or a local Bylin representative for a quote.
